## JUBILEE CHRISTIAN ACADEMY

Saved to serve with love and excellence for the Great Commission.

DATE : October 16, 2019

TO : PARENTS / GUARDIANS OF NURSERY JOHN

FROM : RIZZA C. COLOBONG  
Administrator

SUBJECT : CLINIC ADVISORY ON SEASONAL ILLNESSES

---

The School has noted absences of students in Nursery John due to fever. With this, please be advised on the following:

1. When your children return to school from absence due to illness, your children are to visit the Clinic first with the attending physician's medical certificate of fit to return to school for clearance before being allowed to enter the class. If not cleared, your children will wait in the clinic to be fetched.
2. Kindly do not send your children to school if they show evidence of health condition so they can recover the soonest and not to compromise other student's well-being. If your children reported to school with the condition stated below, your children will be sent home.
  - 2.1. Fever, temp  $>/37.8/$  and above
  - 2.2. Severe cough and colds
  - 2.3. Temperature is normal but with body pain, dizziness, nausea
3. Children with no signs and symptoms of fever, cough and colds will still be checked by their adviser using digital temperature scanner. If found to have high body temperature, your children will be sent to the clinic for final evaluation.
4. Kindly remind your children on the following:
  - 4.1. Proper hand washing
  - 4.2. No sharing of food / drink
  - 4.3. Wearing of mask on onset of cough and colds.

Rest assured that the School conducts regular cleaning to ensure that classrooms and other facilities are disinfected thoroughly.

Thank you for your kind cooperation.
