The official email address of the students and the default password were emailed to the parents' registered email addresses in the previous weeks. Follow the instructions indicated in the email. Email <u>registrar@jca.edu.ph\_if</u> you have not received the student's email address.

The student's email address is needed in order for the student to join the Google Classroom.

As discussed in previous parent-meetings, an adult companion (called the Learning Partner) is required for Grades 1 to 3 students.

Parents, guardians, and/or Learning Partners are asked to participate during the first two days of classes to help them be familiar with the Google Classroom. They are encouraged to ask questions and clarifications while the class is in session.

We highly appreciate your support in helping your child enhance his / her learning through technology. As always, we count on you for the success of this endeavor.

Thank you and God bless.
